A226	ACON: AIDS Council of NSW		"Lighten Your Load". Nowadays, by making a commitment to treatment, it's possible to reduce your viral load and manage HIV for longer than ever before. But it takes more than just dedication. It also takes information and practical support. A free booklet is now available to help you get the most from your treatment. It has information on how to manage side effects and tips making the drugs easier to take. Pick up this booklet today and lower your load.	New South Wales	No date indicated
A227	ACON: AIDS Council of NSW		"Of all the combination treatments, this remains the most effective". Anti-viral drugs in various combinations are a major step forward in the treatment of HIV and AIDS, but only for some people - they don't work for everybody. The success of treatments is still highly dependent on following dosage instructions to the letter. For some people, the side effects can be severe. And long term, some of the effects are still unknown. While it is clear these treatments are successful in reducing the activity of HIV in most people, it's still far from clear that they can eliminate the virus from the body altogether. Some people may also have been infected with strains of HIV which are already drug resistant, which means some treatments may be less effective. The fact remains there is still no cure for HIV/AIDS. So every time you have sex, share the responsibility with your partner, and unless you do "Talk, Test, Test, Trust", use the safest combination available: a condom and lube. It's your life, take charge".	New South Wales	No date indicated

B032	Lesbian and Gay Anti-Violence Project	Photography: C. Moore Hardy. Design: DesignNation. Words: Greg Logan	"So What If They're Gay?" Who cares? If you think it's ok to harass gays and lesbians then you're the one with the problem, not them. The NSW Department of School Education has introduced new guidelines which now require all State High Schools to develop and implement anti-homophobia strategies. These guidelines are contained within the "Procedures for Resolving Complaints About Discrimination Against Students". All schools are also required to appoint a trained Anti-Discrimination Officer whose job is to act as a point of contact for lesbian and gay students experiencing harassment, vilification or discrimination. B034	NUS: National Union of Students.		"In Some Parts Of The World, Govern-ments Kill Queers. In Australia We Make Them Kill Themselves". Although in Australia homosexuality has been decriminalised, numerous studies have shown that queer people are still at greater risk of committing acts of self harm or suicide than others. This is due to social structures and social norms, such as homophobia, capitalism and the nuclear family. In Australia, governments make the problem worse by refusing to fund suicide prevention programs, also access to welfare benefits like youth allowance is made difficult which often forces queer people to remain in dangerous environments for economic reasons. People around the world need to stand up against any government that kills queers directly or indirectly. Get involved in your queer collective to find out how to fight back against homophobia. D241	Queer Action		Join Queer Action At The Campaign Against the Nazis Rally. "Nazi Shop Out Of Fawkner!": Saturday July 12: 1pm sharp. Gather at CB Smith Reserve; Jukes Road, Dawknor (near Gowrie Station); then march to bookshop. "Demonstrate Against Pauline Hanson's One Nation Party". Monday July 7: 6.30pm; Dandenong Town Hall, Lonsdale Street, Dandenong. Friday July 18: 6pm; South Barwon Civic Centre, cnr Reynolds Road & Princes Highway (Hanson will be speaking at this meeting). National Action is an extreme right wing organisation - racist, anti-Semitic and homophobic. It has opened a bookshop in Fawkner as a base from which it hopes to recruit and spread its ideas. They are trying to link up with ... One Nation Party to be it's stormtroopers. The Campaign Against Nazis (CAN), a broad coalition of groups and individuals, is working to close the shop. Queer Action is proud to be part of that campaign. National action flaunts its homophobia. In a recent leaflet circulated in Fawkner, it accused CAN of being full of homosexuals, Jewish lesbians, and people from AIDS-ridden inner suburbs. They accused CAN of supporting gay rights, of coming to Fawkner to recruit young people into homosexual groups, of selling drugs, of supporting sex education in schools - all of these equally awful in their eyes. Queer Action is an organisation of people committed to queer visibility in a straight world; and to diversity in the queer community. Fighting Nazis and bigoted ideas is part of that commitment.
